A Newer Acutonics Elective taught in a unique way by Lynn Wedekind, MEd., Senior Licensed Acutonics Faculty, Professional Musician

This foundational training deepens the concepts from Acutonics Level I and II Intervals with Planetary Intervals, as we explore the understanding of the Acutonics Planetary Musical Scale and their intervallic relationship to each other. Planetary tones included are of the Earth Moon and Sun, the Planets from Level III, as well as Chiron, Nibiru, & Sedna.

This class will broaden your understanding between basic Western Music concepts and theory with Even-Tempered Musical Notes and Intervals, in comparison to the Well-Tempered Planetary Musical Tones and Intervals. No previous musical background is necessary.

Expand your knowledge of Cosmic Music and Intervals, from a historical, alchemical and mathematical perspective with Interplanetary Intervals; including intervals within the octave, inversions, compound intervals, The Law of the Octave and the Overtone Series and how they apply to the Acutonics Healing System and Sound Healing.

Objectives:

- Learn the basic similarities and differences between well-tempered (Planetary) and even-tempered (Western Music) tones and intervals.
- Understand the concept of intervallic choices and how they affect and enhance sound treatments.
- Learn to identify intervals based upon mathematics and listening from a variety of intervallic and basic music theory tools.
- Expand your knowledge of Interplanetary Intervals while fine-tuning your planetary tone choices for treatment protocols based upon archetypes and intervals.
- Integrate and expand your consciousness and inner listening of intervallic relationships, through experiential protocols each week concluding with an ancient Taoist alchemical template.

Each day we will explore and build upon the concept of choosing intervallic sequences that expand your treatments beyond the scope of archetypal qualities. You will have daily practicums including activating points and/or Extraordinary Vessels, with a new understanding of intervallic sequences that enhance your archetypal choices, including archetypes that include integrating and understanding of the intervallic choices. We will also explore Astrological concepts and special dates that correspond with intervals and numbers.
